

Remote & Hybrid Work Policy 2025

Eligibility

All employees who have completed their 90-day onboarding period are eligible for hybrid or fully remote work arrangements, subject to role requirements. Roles requiring physical presence (lab, manufacturing, reception) are excluded. Eligibility is reviewed annually during performance cycles.

Work Schedule Expectations

Remote employees are expected to be available during core hours of 10 AM to 3 PM in their local time zone. Meetings should be scheduled within these hours when possible. Employees are not expected to respond to messages outside their declared working hours. Async communication via Slack and Notion is encouraged.

Equipment & Home Office Support

The company provides a one-time home office stipend of \$800 for remote employees. This covers monitors, ergonomic chairs, keyboards, and webcams. Submit receipts through the Expenses portal within 30 days of purchase. A company laptop is provided on day one of employment and must be returned upon exit.

Internet & Connectivity

Employees receive a monthly internet reimbursement of \$60. Submit your ISP invoice monthly through the HR portal. If you experience persistent connectivity issues, IT can provide a mobile hotspot device on request. VPN usage is mandatory when accessing company systems remotely.

In-Office Requirements

Hybrid employees are expected to come into the office a minimum of 2 days per week, on agreed days with their manager. Office days should be coordinated with the team to maximize collaboration. Desk booking is done through the Office App. Fully remote employees attend one in-person team offsite per quarter.

Performance & Productivity

Remote employees are evaluated on outcomes, not hours. Managers set quarterly goals using the OKR framework. If a manager suspects productivity issues, a structured check-in plan is initiated rather than surveillance tools. The company does not use employee monitoring software.

International Remote Work

Working remotely from another country requires prior approval from HR and Legal at least 4 weeks in advance. Tax and employment law implications vary by country. Employees are responsible for understanding visa requirements. Short stays under 30 days are generally permissible with manager approval.
