

Employee Mental Health & Wellness Policy

Overview

Our organization is committed to creating a mentally healthy workplace. We recognize that mental health is as important as physical health, and we provide resources, policies, and a culture that supports employee well-being. This document outlines the mental health support available to all full-time and part-time employees.

Employee Assistance Program (EAP)

All employees have access to our confidential Employee Assistance Program. The EAP provides up to 8 free counseling sessions per year with licensed therapists. Sessions can be in-person, virtual, or via phone. To access the EAP, call 1-800-EAP-HELP or visit the HR portal under 'Wellness'. All interactions with the EAP are completely confidential and not shared with management.

Mental Health Days

Employees are entitled to 3 paid mental health days per calendar year, separate from sick leave. These days do not require a doctor's note or manager approval. To use a mental health day, simply mark it in the attendance system as 'Wellness Leave'. These days do not roll over to the next year.

Manager Responsibilities

Managers are trained to recognize signs of burnout, anxiety, and stress in their teams. If you are struggling, you are encouraged to speak with your manager. Managers are required to maintain confidentiality and connect employees with appropriate resources. No performance action may be taken solely based on an employee seeking mental health support.

Crisis Support

If you are experiencing a mental health crisis, contact our 24/7 crisis line at 1-800-CRISIS-NOW. For immediate danger, call 911. The National Suicide Prevention Lifeline is available at 988. HR can also arrange an emergency leave of absence within 24 hours for crisis situations.

Stigma Reduction Initiatives

We run quarterly 'Mental Health Awareness' workshops open to all employees. Anonymous surveys are conducted bi-annually to measure workplace stress levels. Results are shared company-wide with action plans. Our internal Slack channel #mental-health-allies is moderated by trained peer supporters.
